

**Blue-White**<sup>®</sup>

# DiaFlex<sup>®</sup>

The worlds first single-layer  
injection molded PVDF diaphragm

**Zero Breakdown • Zero Delamination**

- / Single piece injection molded design
- / 100% in-house manufacturing
- / Standard on all Blue-White CHEM-FEED models\*

\* Excluding C-600 and C-1500N models

U.S. patents: **10,330,094** and **11,261,857**

Take control of  
your chemical  
feed system with  
a diaphragm  
built to last

# DiaFlex<sup>®</sup> Diaphragms

## Guaranteed to last the life of the pump

DiaFlex<sup>®</sup> is standard on many of our CHEM-FEED<sup>®</sup> diaphragm pumps and is guaranteed to last the life of the pump!

DiaFlex<sup>®</sup> diaphragms are warranted for the life of the pump. Blue-White will replace a damaged diaphragm at no cost to the customer, provided the pump was at all times operated within the guidelines included in the pump's operation manual. This warranty only applies to DiaFlex<sup>®</sup> diaphragms, not the pumps themselves. Blue-White pumps are separately covered by warranties specific to them.

## Innovative design for a longer-lasting diaphragm

Blue-White's exclusive DiaFlex<sup>®</sup> High-Performance Diaphragm is constructed of PVDF for exceptional chemical compatibility and is manufactured 100% in-house.

DiaFlex<sup>®</sup> incorporates an innovative single-layer design, rather than the multiple layers of traditional diaphragms. Because there are no multiple layers, DiaFlex<sup>®</sup> diaphragms exhibit zero breakdown or delamination, virtually eliminating field maintenance and downtime.

Exclusive to  
**CHEM-FEED<sup>®</sup>**  
**Metering Pumps**
